

Bona Green Ceramic Abrasive 8600

Technický list

Bona Green Ceramic Abrasives are comprised of a combination of ceramic and aluminum oxide grit materials, making them extremely aggressive, offering outstanding productivity.

- Cuts 30% faster than any other competitive ceramic abrasive Faster sanding process
- Lasts up to 50% longer than any other competitive ceramic abrasive Minimizes scratches
- Available in: Discs, Edger Discs, Belts

Sanding sequence

It creates an optimal system for high sanding performance combined with an excellent surface finish. The ceramic aluminium oxide grits used on the abrasives are close to diamonds in hardness ensuring extremely long-lasting abrasives with maintained aggressiveness. Polyester cloth backing for outstanding strength and dimensional stability. Discs have Velcro backing for simple fitting of abrasives.
